

Dog Pampering

You will need: a dog brush, dog shampoo, an undercoat rake and lots of treats.

- Brush any knots you can see.
- Wet, shampoo, rinse.... The result will be a wet, soggy dog.
- Catch the dog as he runs around, having a crazy five minutes, barking and telling you off for wetting him!
- Make friends again by giving him a treat.
- Wash hands, have a drink and wait for the dog to dry. You could use a hairdryer if he likes it!
- Gently drag the rake through his coat. Work from head to tail. Do not push down with the rake as this may hurt him.
- Bin all the excess fur and clean the area.
- Admire your beautiful dog and the fantastic job you have done.
