

Elms Bank SP Pathway Home School Activity Overview

Week 4 - Simplified as for the new approach to home learning.

English

Continue to share books, practice name writing, forming sentences both verbally and by writing them. Lots of online resources around these topics. Encourage use of full sentences when asking for things around the house.

Science

The Science topic this term is plants. Continue to look after the seed planted last week and observe plants while out on a daily walk. Identify the different parts, flowers, leaves, stem etc.

Maths

This half term our maths topics are addition, number, capacity and money. Focus on these topics when using online resources. Measuring out liquids, counting coins, recognising numbers and adding using items around the house.

Drama

Our topic or drama this half term is fairytales, look online for videos telling the stories of fairytales and watch them as an introduction to the topic. Ask questions about what happens and who the characters are in the stories.

Global Learning

This half term our topic in global learning is global food and traditions, the third session continues to explore Africa, the food, traditions and history of the horn of Africa in particular. Watch Handa's Surprise on YouTube and discuss the story.

Product Design

In product design this half term we would have been making a desk tidy. This is a little tricky to replicate at home but it may be possible to help with some household DIY? Painting, cleaning, anything that involves use of basic tools.

ICT

Our new ICT topic is e-art, for this we use Purple Mash which I sent out the logins for last week, lesson 3 focuses on the work of Piet Mondrian, he uses lots of lines in his work so using Purple Mash can you create a line picture, or create on using a ruler and different colours.

Music

Our new music topic involves responding appropriately to music, moving and dancing in a way that matches the speed and beat of any piece of music, try out a few different musical genres.

Independent Living

In independent living our new topic is shopping skills, continue to develop this by helping with a shopping trip can you help to put items away in the correct place, fridge, cupboard, freezer, etc.

Food Technology

Each week I will attach the recipe that we would have made on the page below so that if you wish you can make the recipe together at home, the focus will be on naming foods and using basic utensils with less support.

Additional Learning

Visit the school website where there are many ideas for additional learning as well as using the websites I sent out in the email before the Easter Holidays.

Food Technology recipe, 11/5/20.

Manchester Egg

Serves 2

Ingredients

25g Black Pudding
25g sausage meat
1 medium boiled egg
25g Breadcrumbs
25g plain flour
Salt and pepper

Equipment

Method

- Pre Heat oven to 170°C
- Gently place egg in pan, completely cover with water and bring to boil.
- When boiling time for 4 minutes and put pan in sink and run cold water over egg.
- In a bowl, mix together sausage meat and Black pudding until well combined.
- On a floured surface flatten out meat mixture into a big burger then shape meat around the egg
- Dip and roll the ball in Flour, then beaten egg then breadcrumbs.
- Place on greased baking tray and bake for about 15 minutes until golden brown.

Hints and tips

Vegetarian option is using mashed potato and cheese rolled in breadcrumbs
