

PE

Pathway: A

Qualification: BTEC Certificate in Sport and Active Leisure

Course outline:

Britain's sport's industry is hitting top form. In the past five years it has become a £20 billion industry in the UK and experts believe it will continue to grow long after the legacy of the London 2012 Olympic and Paralympic Games.

This qualification will give you an ideal introduction to the sports industry as well as developing essential skills required for employment or progression to further qualifications and training.

Your team work and communication skills will be developed through course activities, both of which are key skills future employers look for. You will have the opportunity to participate in team sports as part of the programme. As a guide, your course will be split to 30% practical sports activity with 70% classroom based work.

You will learn about the sports and leisure industry and the variety of careers available through visits and speakers including a 3 day residential trip to Rock and River, in Chorley. You will hear from professionals in industry who will offer you real-life interview practice to help prepare you for your next step.

Assessment:

Students are formally assessed in seven units by the end of Year 11. Units will include some of the following:

- Working in a team
- Physical activities for children
- How the body works
- Assisting a sports leader

PE

Pathway: B

Qualification: BTEC Award in Sport and Active Leisure

Course outline:

PE

Pathway: C

Qualification: Entry Level PE

Course outline:

The course develops the student's enjoyment of Physical Education in relation to preparing them for lifelong activity through the participation of a broad range of practical sports. In conjunction with acquiring a broad range of practical skills, students have to make evaluative comments in relation to practical performance and learn the rules and etiquette associated with each activity.

Assessment:

Students are formally assessed in four practical areas by the end of Year 11. These will be taken from their best performances throughout the two years. Assessment will be video recorded and moderated internally with the possibility of an external moderator attending sessions. Students will also be assessed on their performance analysis. This can be submitted in a variety of ways to suit the learner.
