

Dear Parent/carer

We have been made aware that there is some evidence to suggest that an upset tummy in children and younger teenagers may be a rare symptom of coronavirus. Until conclusive evidence is provided by the Government we are extending the time period of 48 hours to 7 days. Therefore if your child begins to show symptoms of an of an upset stomach you will need to please keep your child off school for 7 days from the last sign of an upset tummy.

We will continue to keep you updated on changes taking place in and around school regarding Covid-19.

Thank you for your cooperation.

Yours sincerely

Mrs Orienne Langley-Sadler
Headteacher
